

Cosmic Event Cards

## Milky Way Galaxy

The Disk of the Milky Way Galaxy Forms.

Credit: ©Michael Guidry, Univ. of Tenn., Knoxville

## Moon

Earth's moon forms through violent impact.

Credit: NASA/NSSDC

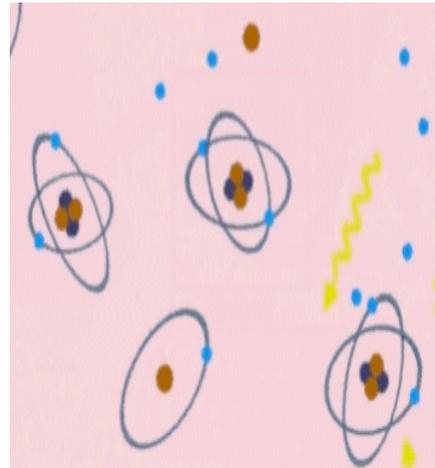

## Dinosaur Extinction

Massive asteroid smashes into the Earth. The resulting dust cloud blocks sunlight for months.

Credit: NASA/Don Davis

## Atoms

Hydrogen and helium are the first atoms to form.

Credit: Nick Maris

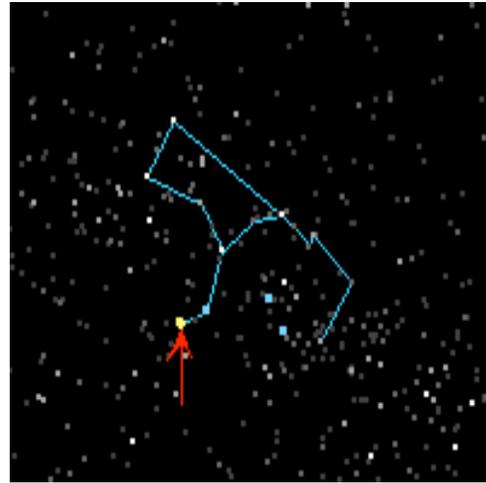

## Telescope

The Telescope is invented by Hans Lippershey. (This is a modern telescope.)

Credit: NOAA

## Proxima Centauri

Formation of the star closest to the Sun.

Credit: Arnold V. Lesikar, St. Cloud State University

## Pleiades

Stars in the Pleiades Cluster form.
