

Student Background Survey – ASEN5050 – Fall 2005

1. Your name and university email address:
2. Undergraduate Major:
3. Undergraduate University:
4. Area of Graduate Research at CU:
5. What previous classes have you had in space flight dynamics (orbital mechanics / astrodynamics) and where did you take these classes?
6. Are there any particular topics not on the syllabus that you would like to see covered during the remainder of the semester?
7. If we need to make up a lecture during the semester, what is your class schedule so that I can figure out available times?
