MMS Pre-Ship Review

Thu, 23 Oct. b.16W-rm.N76

08:30 - 16:40 MMS Commissioning Timeline Review

AGENDA	DESCRIPTION
General overview of timeline	Philosophies employed, spin rate changes, orbital separations, general overview of maneuvers, when formation achieved, when ACTIVATION completed
Review Low voltage Activities in Timeline	Timeframe for each sensor; where some soft rules are violated.
Review Deployment Campaign	Timeframe of each stage; ASPOC Activation. More details on spin rates.
Review High Voltage Activities	Timeframe for each sensor on each sc; where some soft rules are violated; varying SC order per investigation; where EDI and ASPOC fall on each SC wrt FPI, HPCA, and EIS; end of each investigation
General Issues Encountered/Info Still Required	[whatever is on the list at the time; likely temperature wrt power load/eclipse/recovery...]
Discussion	What changes are needed? What constraints can be relaxed?
Post-launch Strategic and Tactical Planning	Review our plan for the commish planning activities.
