

MMS SCIENCE WORKING TEAM MEETING AGENDA

27 Feb – 3 Mar 2016, Marriott Hotel, Key West, FL

Monday, 27 Feb. AM Instrument Team Splinters

07:30 – 08:30 **Salon A1**
SOC Operations Tagup with Leads

11:00 – 13:00 **Salon A1**
SITL Burst Team Caucus

13:00 – 15:30 **Salon A1**
FPI Team Meeting

15:30 – 17:30 **Salon A1**
FPI/EPD/HPCA/EDI cross calibration meeting

08:30 – 15:00 **Salon C1**
Fields Team Meeting

09:00 – 17:00 **Salon A2**
EPD Team Meeting

09:00 – 15:30 **Salon C2**
HPCA Team Meeting

ASPOC meets with other teams as appropriate

15:00 – 17:00 **Salon C1**
SOC Instrument Operations Guidelines Meeting

MMS SCIENCE WORKING TEAM MEETING AGENDA

27 Feb – 3 Mar 2016, Marriott Hotel, Key West, FL

Tuesday, 28 Feb AM: Rm. Salon B

Part 1: Operations Plenary 1 **Chair:** Tom Moore

08:30 Moore: Welcome and Meeting Agenda Overview

08:45 Kessel: HQ Perspective

09:00 Burch: Project Update

09:15 Woodard: Mission Operations

09:45 Smith: Instrument Operations

10:15 Coffee Break

10:30 Pankratz: MMS Data Management

10:45 Larsen: SDC Operations and Outlook

11:15 Garrison: E/PO Update and Future Opportunities

11:30 Burch: The Magnetic Reconnection Process in the EDR

11:45 Webster: New EDR events from phase 1B

12:00 Lunch, Poster Session TBD

Tuesday, 28 Feb. PM; Rm. Salon B

Part 2A: Planning for Phase 2B **Chair:** Mark Adrian

13:00. Strangeway: New version of magnetometer data

13:05. Ergun: "Orbit in the Life" in Phase 2b

13:30. Phan: "How to select EDR regions in the tail"

14:00. Wilder: "Week in the Life of a SITL"

14:30. Phan/Burch/Torbert/Giles: Discussion

15:00 Break

15:15. Nakamura: PSBL in Phase 1X BBF Campaign

15:30. Birn: Ion acceleration in dipolarizations fronts

15:45: Baker: Multiscale particle injection features and Phase 2B

16:00 Adjourn

Tuesday, 28 Feb PM, Rm. below

Part 2B: Science Working Group (**Salon A**) / DSWG (**Salon C1**)

SWG Chairs: J L Burch / T E Moore, **DSWG Chair:** K Larsen

16:00 Begin SWG Meeting (Limited to SWG membership) Rm. TBD

16:00 Begin DSWG Meeting, Rm. TBD

18:00 Adjourn

MMS SCIENCE WORKING TEAM MEETING AGENDA

27 Feb – 3 Mar 2016, Marriott Hotel, Key West, FL

Wednesday, 1 Mar AM, Rm: Salon B

Part 3: Science Presentations **Chair:** Guan Le

08:30. Wilder: Parallel electric fields in magnetosheath reconnection.

08:45. Graham: LHDI in an asymmetric reconnecting current sheet

09:00. Khotyaintsev: Electron holes in a reconnection separatrix

09:15. Ergun: Current Sheet Instabilities in Reconnection

09:30. Plaschke: Magnetosheath Jets

09:45. Andriopoulou: Plasma density from spacecraft potential

10:00 Coffee Break

10:15. Dargent: Cold ions at the magnetopause

10:30. Shuster: Determining MMS trajectories through EDRs

10:45 Gershman: Fluctuations at ion scales in the magnetosheath

11:00. Russell: Magnetopause topology implied by electron flows

11:15 Strangeway: Magnetopause-Ionosphere coupling by FAC

11:30. Anderson: M-I Coupling and correlations from AMPERE

12:00 Lunch, Poster Session TBD

Wednesday, 1 Mar PM, Rm.: TBD

Part 4: Science Presentations **Chair:** Dan Gershman

13:00. Paterson: Application of trigger terms for studies of turbulence

13:15. Mackler: Magnetosheath Plasma Turbulence in Phase 1A

13:30. Matthaeus: Dayside Turbulence

13:45. Sibeck: KH and foreshock/magnetosheath

14:00. Hesse: EDR Structure

14:15. Liu: Electron pressure tensor divergence

14:30. Reiff: CCMC modeling of MMS EDR encounters

15:00 Break

15:15. Denton: A natural (LMN) coordinate system for MMS

15:30. Chen: Multi-spacecraft EDR perspective

15:45. Wang: Ion energization in the diffusion region

16:00. Drake: 3D kinetic modeling of reconnection

16:15. Holmes: Phase space holes in presence of cold plasma

16:30. Ahmadi: Currents in secondary magnetic reconnection from EDI

17:00 **Reception:** Hammock Beach (or TBD in case of rain)

MMS SCIENCE WORKING TEAM MEETING AGENDA

27 Feb – 3 Mar 2016, Marriott Hotel, Key West, FL

Thursday, 2 Mar AM, Rm. Salon B

Part 5: Science Presentations **Chair: Allison Jaynes**

08:30. Genestretti: MMS data comparisons with PIC simulations
08:45. Cassak: 2D and 3D PIC comparisons with MMS data
09:00. Jaynes: Chorus Wave Properties and Effects
09:15. Turner: Energetic particle injections and chorus element scales
09:30. Cohen: Ion composition in outer magnetosphere
09:30. Leonard: Particle injections from multiple spacecraft/missions

10:00 Coffee Break

10:15. Lapenta or Newman: TBD
10:30. Goldman: TBD (30 mins requested).
10:45. Oka: Electron Acceleration at the Bow Shock.
11:00. Shay: 3D effects in magnetopause reconnection
11:15. Phan: Electron heating at the magnetopause
11:30. Lei: Control of magnetosheath phenomena by solar wind properties

12:00 Lunch, Poster Session TBD

Thursday, 2 Mar PM, Rms: Salon B

Part 6: Science Presentations **Chair: Ian Cohen**

13:00. Vines – Magnetospheric ion heating in the low latitude boundary layer
13:15. Broll – Scattering of specularly reflected He⁺⁺ at the Earth's bow shock
13:30. Trattner – Location of magnetic reconnection at the magnetopause
13:45. Petrinec – Minor ion dynamics in Flux Transfer Events
14:00. Gomez – Measurements of interstellar pick up ions using MMS HPCA
14:15. Fuselier – Island structures observed near Electron Diffusion Regions
14:30. Avinov: Dawn terminator plasma entry injections from MMS

15:00 Break

15:15. Bessho: Guide & electric field effects on electron crescent distributions
15:30. Zhao: Force balance for varying FTE scale sizes
15:45. Wei: Electromagnetic waves observed at the bow shock
16:00. Kavosi: Electron Microinjections due to K-H instability and FTEs
16:15. Zhang: Hot flow anomalies from MMS data
16:30. Alm: MMS observations of coalescing flux ropes

MMS SCIENCE WORKING TEAM MEETING AGENDA

27 Feb – 3 Mar 2016, Marriott Hotel, Key West, FL

Friday, 3 Mar AM, Rms. below

Part 8: Instrument Team Splinters

08:30 – 12:00

Theory and Modeling Team Meeting **Salon A**

Turbulence Subgroup, **Salon C**

Posters: to appear in or near Salon B earlier in week

Larsen: SDC Data Availability and Access

Larsen: SDC Data Access and Visibility Demos

McGuire: Enabling Science: Space Physics Data Facility (SPDF)

Genestretti: Possible observation of the outer EDR on 2016-11-28
