Public vs Non-Public Data

GOAL: Put all data appearing in publications on the public side – goal is to finish by submission of the 2022 Senior Review (Nov 2022)

- [x] Start bi-weekly meetings of the DSWG
    - [x] add this topic to agenda, to address questions and clarify/adjudicate special cases

- [x] Commissioning data that are L2 and/or have appeared in publications made public
    - [x] data directory structure to follow the current SDC scheme to place the commissioning data under its appropriate directories in 2015, so spedas/SPDF data load software can find them without extra effort
    - [x] mms*/edp/comm/l2
    - [x] mms*/scm/comm/l2
    - [x] additional commissioning datasets used in publications (instrument teams to identify these data products and provide them to Kris; an example publication used commissioning datasets here)

- [x] All L2 data products made public
    - [x] mms*/feeps/raw/l2
    - [x] mms*/fpi/slow   (there is no slow L2 data at the SDC)
    - [x] mms*/fpi/fast/trig
    - [ ] any others?

- [x] All L3 data products made public
    - [x] mms*/fpi/brst/l3
    - [x] mms*/fsm/brst/l3
    - [x] any others?
        - [x] mms*/feeps/srvy/l3

- [x] AFG and DFG L2 pre-FGM data made public (no L2 AFG/DFG data as confirmed by the MAG team)
