

Missions

Missions

The working group comprises members representing many solar EUV instruments:

GOES: N-O-P EUV

GOES-R: EXIS

GOES-R: SUVI

Hinode: ISE

Hinode: XRT

PROBA-2: LYRA

PROBA-2: SWAP

Solar Dynamics Observatory (SDO): EVE

Solar Dynamics Observatory (SDO): AIA

Solar and Heliospheric Observatory (SOHO): SEM

Solar and Heliospheric Observatory (SOHO): CDS

SoIACES

Solar Orbiter: EUI

SORCE : SOLSTICE

SORCE: XPS

TIMED: SEE

We also have participation from users of the data and the **National Institute of Standards and Technology (NIST)** Synchrotron Ultraviolet Radiation Facility (**SURF**), The **National Synchrotron Light Source (NSLS)**, and the **Physikalisch Technische Bundesanstalt (PTB)**
