

2018 Sun-Climate Symposium Summary

2018 Sun-Climate Symposium Summary

A look ahead ...

2018 Sun-Climate Symposium

This year's focus was driven by its occurrence between two solar irradiance missions:

1. The current state of the TSI and SSI records
2. Climate Data Records
3. Next generation of observations
4. Impacts of solar during Solar Cycle 24
5. Stellar variability and connections to the
6. Expectations for Solar Cycle 25

Theme(s) for next Meeting?

2019 Sun-Climate Themes

Potential Themes

1. Are we at solar cycle minimum yet?
2. ...
3. ...

SORCE/Sun-Climate/TSIS Science Meetings

1999, Aug. 25-27, Taos, NM

2000, Sep. 13-15, Snowmass, CO

2002, Jul. 17-19, Steamboat Springs, CO

2003, Dec. 4-6, Sonoma, CA

2004, Oct. 27-29, Meredith, NH

2005, Sep. 14-16, Durango, CO

2006, Sep. 20-22, San Juan Islands, WA

2008, Feb. 5-7, Santa Fe, NM

2009, Jul. 27-28, Montreal, Canada

2010, May 19-21, Keystone, CO

2011, Sep. 13-16, Sedona, AZ

2012, Sep. 18-19, Annapolis, MD

2014, Jan. 28-31, Cocoa Beach, FL

2015, Nov. 10-13, Savannah, GA

2018, Mar. 19-23, Lake Arrowhead, CA

2019: *when and where?*

Sun-Climate Meetings, Workshops in 2019

- EGU
 - *Vienna, April 7-12, 2019*
- IUGG 2019 joint session on *Solar Influences on the Atmosphere and Climate*
 - *Montreal, Canada, 8-19 July 2019*
- 2019 Sun-Climate Symposium
 - TBD – fall?
- AGU
 - Dec 9-13, 2019
