

2020 Sun-Climate Symposium Summary Wrap-up

What is the Quiet Sun and What are the Subsequent Climate Implications?

Day	Time	Title
Tue	8:30 AM – 1PM	1. The Sunset of SORCE <i>Chairs: Tom Woods and Gary Rottman</i>
Tue	1 – 5 PM	2. Recent/Space-Era Solar Cycle Timescales <i>Chairs: Greg Kopp, Marty Snow, and Jae Lee</i>
Wed	8 – 11:25 AM	3. Solar Variability and Climate Trends on Secular Timescales <i>Chairs: Odele Coddington and Doug Rabin</i>
Wed	4 – 6PM	Poster Session / Reception
Thu	8 AM – Noon	4. Solar Influence on the Atmosphere and Climate <i>Chairs: Marty Snow, Jae Lee, and Greg Kopp</i>
Thu	1:25 – 4:55 PM	5. A New Reference Spectrum for Remote Sensing <i>Chairs: Erik Richard and Dong Wu</i>
Fri	8 – 9:15AM	6. Observational Predictions <i>Chairs: Doug Rabin and Odele Coddington</i>
Fri	9:15 – 11:25 AM	7. Looking Ahead – Future Observations of the Sun and Earth <i>Chair: Peter Pilewskie</i>

SORCE/Sun-Climate/TSIS Science Meetings

1999, Aug. 25-27, Taos, NM

2000, Sep. 13-15, Snowmass, CO

2002, Jul. 17-19, Steamboat Springs, CO

2003, Dec. 4-6, Sonoma, CA

2004, Oct. 27-29, Meredith, NH

2005, Sep. 14-16, Durango, CO

2006, Sep. 20-22, San Juan Islands, WA

2008, Feb. 5-7, Santa Fe, NM

2009, Jul. 27-28, Montreal, Canada

2010, May 19-21, Keystone, CO

2011, Sep. 13-16, Sedona, AZ

2012, Sep. 18-19, Annapolis, MD

2014, Jan. 28-31, Cocoa Beach, FL

2015, Nov. 10-13, Savannah, GA

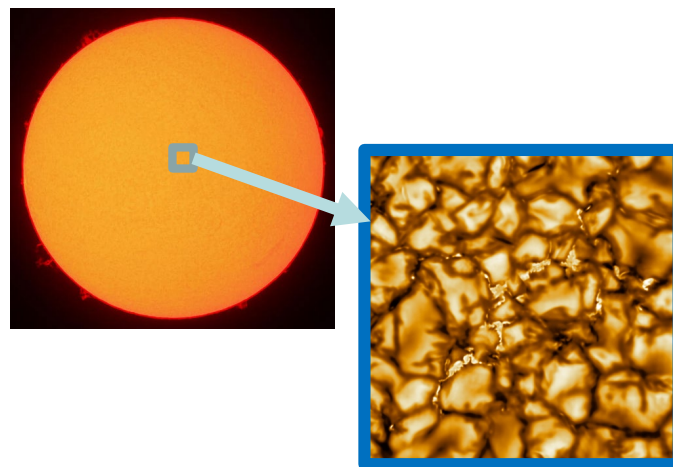

2018, Mar. 19-23, Lake Arrowhead, CA

2020: Jan. 27-31, Tucson Az

2021: When? Where? Theme?

Next Sun-Climate Symposium

- Current idea for next Sun-Climate Symposium is in Sep/Oct 2021
 - Suggestions for meeting theme are welcomed
- Suggestions for meeting site are welcome
- One site idea is on Maui (Hawaiian island) where NSF DKIST new solar telescope is located (meeting tour option)

DKIST First Light Jan 29, 2020
